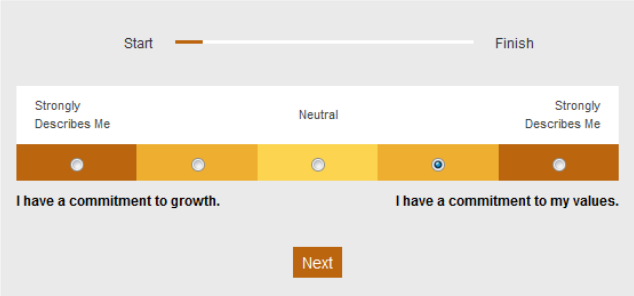
Here are a couple of tips for taking the assessment:

- Please give yourself 30-40 minutes of ***uninterrupted*** time to complete the assessment.
- There are 177 paired-choice questions.
- For example:



- Please try and choose the side that describes you the best by selecting Strongly Describes Me or the next selection down. If either of the choices does not resonate with you, or you feel the same about both of them, please choose Neutral. The caution is to avoid overusing Neutral. Any responses where you choose Neutral are thrown out.
- **You will only have 20 seconds to answer each question,** and you cannot go back and change answers. Go with your gut reaction. There are no right or wrong answers.

When you're finished

After you complete the assessment, please review your CliftonStrengths 34 report, paying attention to those items that are most true of you. ***You will need to have access to your report during your orientation session.***

If you encounter issues with your access code, please view the Gallup Strengths Center Help page.
