

EMS Night Out Continuing Education Event

Thursday, May 23, 2019
5 – 9 p.m.

Allen College
Winter Hall, McBride and Baskins Classrooms
1950 Heath Street, Waterloo, IA

Intended Audience:

Prehospital providers, nurses and physicians

Purpose: To provide high quality education related to emergency medical illnesses and associated treatments for prehospital providers/ED providers.

Educational Objectives:

Upon completion of this program, participants should be able to:

1. Differentiate types of seizures and associated treatments of each.
2. Define toxicological emergencies with overdoses and identify the reversal agents available to prehospital providers.
3. Identify active killer threats and understand how to respond to active killer situations.
4. Understand physiology with common EKG arrhythmias, associated treatments, recognize basic EKG changes for ACS.

Presented By:

Robert Duncan, Waterloo PD – How to Survive and Respond to an Active Killer for EMS

William Fangman, MD – Toxicology for EMS

Stacey Marlow, MD – Differentiating Seizures of All Sorts

Stephen Pedron, MD – Assessment and Treatment of Maternal Emergencies

Credit:

This program has been approved for 3 Contact Hours through Allen College, Iowa Board of Nursing provider #127. Participants must attend the entire session to receive credit.
