Bachelor of Science in Nursing with a minor in Population Health

Students enrolled in the Bachelor of Science in Nursing program are eligible to earn a minor in Population Health. If students complete the minor, the required nursing elective may be waived. The Population Health minor requires 15 credit hours from the following Public Health courses:
(Each course is three credit hours)

**Required courses**

- Introduction to Public Health
- Introduction to Epidemiology and Biostatistics
- Social Determinants of Health

**Elective courses** – (must complete any two courses from the list below)

- The American Health Care System
- Public Health Preparedness
- Ethics, Law and Health Care
- Public Health Policy
- Environment and Public Health
