

# Cardiac Catheterization Lab RN Internship

## Start your nursing career in a specialized, high acuity unit.

Our Cardiac Catheterization Lab (Cath Lab) RN internship provides new nursing graduates the opportunity to start their nursing career in a specialty care area.

- Work and learn in a safe environment that promotes a positive work culture.
- Develop trusting relationships with your colleagues on the Cath Lab team and the cardiologists.
- Step into an exciting and fulfilling career upon completion of the internship.

### YOUR ROLE:

Using nursing process, accept responsibility and accountability for the delivery of patient care during the cardiology patients'/families' stay.

Direct patient/family education and delegate to ancillary personnel while maintaining professional nursing standards.

Contact our nurse recruiter to learn more about this opportunity, sign-on bonus and our benefits.
