

Monogram Health provides personalized care In-home for polychronic patients. We are growing and will be providing care to patients across Iowa very soon! We are currently looking for Registered Nurses and Nurse Practitioners to join our team. We would love to connect with your current students that will graduate soon and your alumni. Will you please point me in the right direction of the person to help us with this? I've included our website and job opening links below if you'd like to take a look! Please feel free to call me if that's easier too. Thank you and I look forward to hearing from you!
