Endocrinology - UnityPoint Clinic Diabetes and Kidney Center Full-Time ARNP

UnityPoint Clinic is searching for a full-time ARNP to join our Endocrinology team in Cedar Rapids, Iowa

Overview:

Endocrinology is one of four services that comprise the newly established UnityPoint Clinic Diabetes and Kidney Center. Endocrinology partners with Nephrology, Diabetes Education and Health Promotion to provide comprehensive care to patients with Diabetes and Chronic Kidney Disease. Diabetes is the leading cause of kidney failure in the United States and Canada. Twenty to forty percent of people with diabetes develop kidney disease, but with proper treatment and screening most can avoid developing kidney failure.

Position Offers:

- Opportunity to work with patients with diabetes on an outpatient basis. Providing diabetes education and management to our patients and families
- Focus on planning, supervising treatments, and monitoring of diabetes related health concerns.
- Work with our Endocrinologist evaluating and treating multiple endocrine diseases.
- Work in collaboration with Diabetes Educators from an ADA Accredited Diabetes Self-Management program.
- Managing your own patient population, with the general supervision provided by Physician
- Coordinating care of patients with the Medical Director and/or the patient’s primary care provider.
- Exercises independent judgements in the assessment, coordination, management and evaluation of certain medical processes and procedures, under the guidelines of the scope of practice and medical protocols.

Practice details:

- Diabetes and Kidney Center employee’s 3 Nephrologist, 1 Endocrinologist and 3 ARNP’s. One supporting Endocrinology and 2 supporting Nephrology.
- Diabetes Self-Management program staffed with 4 Certified Diabetes Educators (RN’s and Dietitians) along with 2 RN’s working toward their CDE
- Health Promotion Program, a medically managed weight loss program supported by 2 Dietitians and a Health Coach
- Office open Monday thru Friday 0800-1700, closed weekends and holidays
- Flexible schedule
- Diabetes and Endocrinology experience desired; either as a nurse or ARNP

Qualifications:

- Current Iowa RN and Advanced Registered Nurse Practitioner licenses
- Accredited by a national agency (i.e. NCC, ACNP or ANCC)
- Previous Diabetes experience, as a nurse or advanced practitioner preferred; not required
- BCLS certification
