Dear Student:

A 10-panel drug screen is required of all registered students. Testing must be completed at least one week prior to beginning classes in order to remain enrolled. The results of the screen will be sent directly to Occupational Health and student will be able to provide prescriptions, if necessary. Students who test positive may not be allowed to proceed in their course of study.

In order to make testing as convenient as possible, locations both in the Cedar Valley and outside of the Cedar Valley are available. Please remember to arrive at your testing site with a full bladder to expedite the process.

**Cedar Valley Testing Locations:**
