

Health Record Requirements

Visit your primary health care provider to complete the requirements below.

All students must have a current physical exam, up-to-date immunizations, and a 10-panel urine drug screen prior to enrollment. Documentation must be submitted to CastleBranch by the specified deadline. Deadlines will be communicated as the start date nears, typically three weeks before orientation.

The physical exam must be completed within one year of start date and include:

1. General physical examination and infectious disease history (including childhood diseases, i.e. chicken pox, Pertussis, etc.) ensuring physical ability to perform patient care duties.
2. The Health Record form must be signed and uploaded to your CastleBranch account.

Immunization records must include:

Dates must be verified on the Health Record form with a minimum of month/year

1. Required Immunizations:

Tuberculosis (TB) – New students are required to have a 2-step TB test. Annual test is required.

Hepatitis B – Series of three immunizations. Results of a titer also recommended.

Measles, Mumps, Rubella (MMR) – Two immunizations or documented titers for each disease is required. History of the disease is not sufficient.

Tetanus, Diphtheria and Pertussis (Tdap required) – Provide proof of vaccination. Must be current within 10 years of beginning classes.

Influenza – Required for all students participating in clinical settings. Medical reason for declination of influenza immunization is required from your Medical Provider.

Varicella Chicken Pox – Proof of immunization, positive titer, or history of disease documentation.

2. Voluntary Immunizations:

Meningitis – Strongly recommended

Hepatitis A – Strongly recommended for students going on mission trips outside the United States. Titers require lab results when there is no documentation of the original immunization.

The 10-panel urine drug screen is available:

UnityPoint Health – Allen Occupational Health

7024 Nordic Dr.

Cedar Falls, IA
