WE ARE RAYUS RADIOLOGY

WE BRING BRILLIANCE TO HEALTH & WELLNESS

For over four decades, **RAYUS Radiology**, formerly Center for Diagnostic Imaging (CDI), has continually delivered the highest standards for health and wellness with state-of-the-art technology and a dedicated team of leading subspecialists. **RAYUS** is revolutionizing radiology while building a nationwide presence to ensure the broadest access to quality care.

RAYUS Radiology is one of the nation's leading subspecialty practices for advanced diagnostic and interventional radiology, with a growing network of imaging centers, hospital partnerships and short- and long-term hospital solutions. With over 3,000 team members nationally and over 800 affiliated radiology subspecialists, **RAYUS** is committed to delivering clinical excellence in communities across the United States through compassionate, safe and cost-efficient care with a focus on superior service to referring providers and patients.

ANNUAL VOLUME
1.6 million procedures (over 2.4 Billion Scans)

SHINE A LIGHT ON OUR CORE VALUES & LEADERSHIP DEVELOPMENT PROGRAM

The **RAYUS Core Values** help us shine more brilliantly every day by serving as a guiding light in our work for each other, our partners, and our patients. The **RAYUS University** Leadership Development Program provides guidance to team members by teaching the core competencies that help them become more effective in their current role and prepare them for new ones.

CORE VALUES

GO ABOVE AND BEYOND
BE THE BEACON
DO THE RIGHT THING
BRIGHTER TOGETHER
PASSION FOR COMPASSION
INSPIRE EXCELLENCE

EST. 2022
RAYUS UNIVERSITY
INSPIRING EXCELLENCE IN LEADERS

2023

With a passion for innovation and a drive to inspire, **RAYUS** looks forward to expanding its geographical footprint and advancing the standard of medical care for all patients and providers by continuing to shine a light on the importance of high-quality and easily accessible diagnostic imaging options for all communities across the country.

- 1981** In December of 1981, Dr. Kenneth B. Heithoff founded the **Center for Diagnostic Imaging (CDI)**.

1985 CDI purchases an MRI scanner, **one of the first outpatient MRIs in the country**.

1986 **Diagnostic and Therapeutic Injection modalities** were added to the services provided by CDI.

1988 CDI forms its first local partnership with **St. Luke's Hospital** in Duluth, Minnesota, to provide high-quality medical imaging to the community.

1991 Transmitting images via **teleradiology groundbreaking technology** was incorporated by CDI. CDI expands to Indianapolis.

2003 The **CDI Quality Institute**, now known as **RAYUS Quality Institute**, was established to lead the imaging industry in defining and pursuing high-quality measures.

2004 CDI begins offering innovative **3T MRIs** to patients.

2006 At CDI in Milwaukee, the **MindState™ fDAD™** system was installed. Working with Neurognostics allowed CDI to provide physicians with the latest imaging technology advancements and give patients the care they deserve.

2012 CDI and **Insight Imaging** joined forces to form one of the nation's most extensive medical imaging and related services organizations.

2016 CDI expands to Oregon by acquiring **EPIC Imaging**.

2020 CDI expanded to Utah by acquiring **U.S. MRI and Open Imaging**, advancing the company as the official medical provider for **U.S. Ski and Snowboard, U.S. Speedskating, and U.S. Bobsled and Skeleton**.

2021 CDI Rebrands to **RAYUS Radiology**, a significant milestone in the company's 40-year history.

RAYUS added **21 centers and over 100 Radiologists** with the acquisition of **InHealth Imaging, Sand Lake Imaging, Diagnostic Centers of America and Foundation Radiology Group**, providing physicians and patients a full spectrum of imaging service options.

2022 RAYUS Radiology obtains, manages, and distributes **over 75 million images annually** across modalities - putting the company squarely at the forefront of the nation's shift to personalized, targeted medicine.
