

Blackboard Learn

Welcome to Allen College

Blackboard Learn is the online learning management system used by Allen College in collaboration with St. Luke's College and Trinity College of Nursing & Health Sciences. Regardless of program of study, all Allen College courses have a Blackboard component.

As part of your Blackboard Learn orientation, you will need to watch a recording and take a quiz. The Blackboard Learn quiz is due with all the other orientation materials as noted in your orientation email from admissions. If you do not feel comfortable using Blackboard Learn or have any concerns, make an appointment to meet with Erin Flage, Blackboard Administrator before the start of the term.

Please follow these instructions to complete your Orientation to Blackboard Learn.

- Watch this brief orientation to [Blackboard Learn](#).
- Following the instructions within the recording, set your password and login to Blackboard Learn. Do not attempt to use Internet Explorer to access Blackboard Learn.
- Go to the **Student Success Hub** course located under the Courses menu.
- Begin with the **Start Here** module.
- After you have reviewed all off the information in the Start Here module, complete the **Orientation to Blackboard Learn Quiz**.
- Questions? Contact Erin.Flage@allencollege.edu or 319-226-2085
