

ADMISSION REQUIREMENTS

Public Health (PH)

The PH program begins twice each year in the fall and spring. Required application materials can be submitted as they are completed, but all materials must be received before admission consideration. Completed applicant files are reviewed on a rolling basis, and the process requires 3 to 4 weeks.

Enrollment is granted for a specific term. All admission criteria must be maintained, including satisfactory completion of required general education courses prior to beginning the program.

Early Applicants

The following criterion must be met:

- Completed fewer than 25 college credits
- Minimum high school cumulative grade point average of 3.0 on a 4.0 scale
- 72 general education hours must be completed before starting the program

Transfer Applicants

The following criterion must be met:

- Transfer applicants must have earned a minimum of 25 college credits prior to admission consideration.
- A minimum college cumulative grade point average of 2.7 (on a 4.0 scale)
- Earned a grade of C- or higher in all prerequisite general education courses
- 72 general education hours must be completed before starting the program

Applicants whose first language is not English must prove English proficiency prior to admission consideration.

Meeting admission criteria does not guarantee admission into the program. Allen College uses a holistic admission review. The process balances academic achievement, work experience, extra-curricular involvement, leadership, community service, diversity, as well as other applicable life experiences. Top applicants are accepted each term.
