

Seliger Family Endowed Scholarship

Type: Endowed

Amount: Varies depending on investment income/loss

Offered: One per year

Deadline: Refer to Allen College Institutional Scholarship Application

Established: 2019

Special Criteria: Undergraduate student; preference given to a student who previously attended an Iowa private college.

The Seliger Family Endowed Scholarship was generously established by Dr. Jared and Miranda Seliger to support undergraduate students at Allen College. This scholarship reflects the Seliger family's deep commitment to education, healthcare and the Cedar Valley community.

Miranda Seliger is a proud 2007 graduate of Allen College, having earned her Associate of Science in Radiography. She later completed a Bachelor of Science in Nuclear Medicine Technology from the University of Iowa. A Waterloo native and West High School alumna, Miranda has previously worked for local healthcare organizations performing diagnostic imaging procedures.

Dr. Jared Seliger began his journey at Allen College in 2008 as a faculty member in the School of Health Sciences. In January 2018, he was named the College's third President. Originally from Jesup, Jared graduated from Don Bosco High School and holds multiple degrees: a Bachelor of Science from Loras College, a certificate in Nuclear Medicine Technology from the University of Iowa, an MBA from the University of Northern Iowa and a PhD from Iowa State University. Like Miranda, Jared has also served the community through his work in diagnostic imaging.

The Seliger Family Endowed Scholarship gives preference to students who previously attended or graduated from an Iowa private college, honoring the educational paths that both Jared and Miranda pursued. During their own academic journeys, they benefited from donor-supported scholarships—experiences that inspired them to give back.

Through this scholarship, the Seliger family pays tribute to the generosity of past donors and hopes to encourage future recipients to recognize the value of philanthropy in education. Their gift is a testament to their belief in the power of education to transform lives and communities.
